To constantly learn new and different things and apply this knowledge to contribute in the growth of the organization and create a niche for myself in this competitive world and to become a renowned BIOLOGY FACULTY.

EDUCATION

VIT University

B.Tech in Biotechnology, 7.8 cgpa 2013

Senior Secondary (Class 12th)

Rajasthan Board of Secondary Education, 69% 2006

Secondary (Class 10th)

Rajasthan Board of Secondary Education, 68% 2004

WORK EXPERIENCE

Allen Career Institute

June 2013 – Present

Faculty Botany

1. Curriculum Design: Develop and update the Botany curriculum to align with current academic standards and scientific research, ensuring that it encompasses all critical areas of plant biology.
2. Lab and Field Work: Organize and supervise laboratory sessions and field trips to give students hands-on experience in plant identification, ecology, and physiology.
3. Research Guidance: Mentor students in research projects, helping them formulate hypotheses, design experiments, and understand scientific methodologies specific to botany.
4. Academic Assessment: Create and administer assessments to evaluate student knowledge, understanding, and application of botanical concepts.
5. Conducting offline/online classes for students of class 11th and 12th as per the NEET curriculum.
6. Curriculum Development: Update and align the curriculum with the latest NEET syllabus to ensure comprehensive coverage of all required subjects.
7. Interactive Teaching: Utilize interactive teaching methods to enhance understanding and retention of complex scientific concepts.
8. Regular Assessments: Conduct practice tests and mock exams regularly to monitor students' progress and readiness for the NEET exam.
